

# Solar UPS Power Backup

Solar Ups Power back-up, built in Lithium battery, which can provide Long Backup time. High compatibility, suitable for most Digital products in the market.

**CF-SLB12-1578**

Over-Current Protection

Short-circuit Protection

Overheating Protection

Constant Voltage

## Best Uses For With

WiFi Router

CCTV Camera

Street Light

Farming Equipment

Sprinkler System

## Technical Specification:

### Battery

Input Rating	Solar Panel
Solar Panel	15 Watt
Output Rating	12V2A
Battery Type	Lithium-Ion Battery
Battery Capacity	23400 mAh
No of Batteries	9 Batteries (3.7V, 2600mAh)
Charging Period	Typical: 24 Hours
Battery Backup	Up-To 8 Days*

### General

Application	Wi-Fi Router / CCTV / IoT Module / DC Appliances (12V2A)
Led Indication	Red Led:- Power Blue Led:- Full Charge
Standby Time	6 Month
Temperature	0°C - 40°C, Humidity 20%-90%
Weight	1300gm
Color	Grey or White
Origin	India

### Safety Features

Over Charge Protection	Over Voltage Protection	Over Current Protection
Short Circuit Protection	Temperature Protection	

### Certification

BIS Certificate
